

IDCEC requires that a complete Attendee Record and a summary of of evaluations is shared with your managing IDCEC organization following each instance of the course. This information is incorporated in your course's record and monitored by IDCEC. The Course Summary Form is to help you, as the sponsoring organization, deliver this information to your managing organization.

## Course Information:

Presentation Title: **Bright Ideas: Lighting, Well-Being, and Visual Perfection**  
Speaker Name: **Steve Klein**  
Date & Time: **May 4, 2012, 9:30 a.m.**

## Evaluation Feedback:

Please reference the evaluations from your event and calculate the required average participant rating using the 1 – 5 scale.

Course Scorecard	Average
Overall Impression	4.7
Quality of Content (timeliness, relevance, depth)	4.7
Presentation (delivery, visuals, interactivity)	4.8

## Attendance Record:

As the sponsoring organization, IDCEC requires that you track attendance at the event.

Total Number of Attendees:   37  

A copy of the attendance roster should be maintained for at least 4 years and provided to your managing organization promptly after the event. Please attach a copy of your Attendance Record.

## Comments:

Please see the following pages for comments.

Keep original and return a copy within 5 business days of your event to your managing IDCEC organization.

**Course Title: Bright Ideas: Lighting, Well-Being, and Visual Perfection**  
**Instructor: Steve Klein**  
**Date: May 4, 2012**

**Evaluation Form Comments**

Outstanding, very useful information, equivalent to the "The Great Courses" by college professors. Fabulous!! Lose the photo of Al Gore please.

Love the slides showing different light applications and your description of the application. Well done!!

Good balance of the various concepts of light and practical applications.

Thoroughly enjoyed the presentation. Great variation in design applications and engaging with the audience.

Amazing verbiage and inflection kept our attention humor good too. The photography guided us well thru presentation.

Want the power point slides. Would be helpful to have as a hand out.

Good flow, injection of humor well received, powerful/useful information. Would attend other session by Steve Klein.

Excellent – advanced info (DSS needs more advanced presentations)

Wonderful with science/aesthetics examples.

Extremely engaging, pushed my understanding and made me want to research issues.

Very intelligent presentation, humor was great, probably best seminar I have ever attended (almost 40 years)

Excellent presentation!

Very well presented. Good indepth review of lighting.

Very enthusiastic and succinct, but at times too technical

Great info!

Steve, (haha!) this was such an entertaining presentation! Thank you so much for tailoring it to fit our educational needs.

He was an excellent speaker. I personally needed a little more basic talk about lighting. Everything was very high-end design. He was extremely knowledgeable. Great sense of humor. Should be a professor.

Sometimes the terminology was a little "above" the comprehension level of the audience.

When going through Gestalt principles, perhaps an example in a room of each theory.

Love the cloth/fabric sails in the church.

Would have loved more design application/photos of the theories.

He knows so much more than I do about light!

Got good general information but little “take away” uses...very global.

Loved the technical/psych. portions of the presentation mixed with the images. Would have loved to see some section drawings of how to apply some of the more technical indirect effects to incorporate into floor plans/CDs. Thx!
